STRENGTHS

CREATIVE
Part of my VIPS includes my creative side. My biggest strength is the endless expanse of different ways of thinking outside the box. From playing music to designing webpages, all these creative processes are things I excel in.

ANALYTICAL
Another strength I have is my analytical side. I will always do my best to analyze things as much as possible before beginning anything. This type of analysis carries from doing sports to doing homework, in which failure is an option, however analyzing things makes failure a success within itself.

SOCIAL
Social, not outgoing. If I’m with people that I’m comfortable around, I can be social to the point where it seems I am extroverted and outgoing. However, seldomly do I approach others outside of my comfort zone.
